

# Lean Implementer

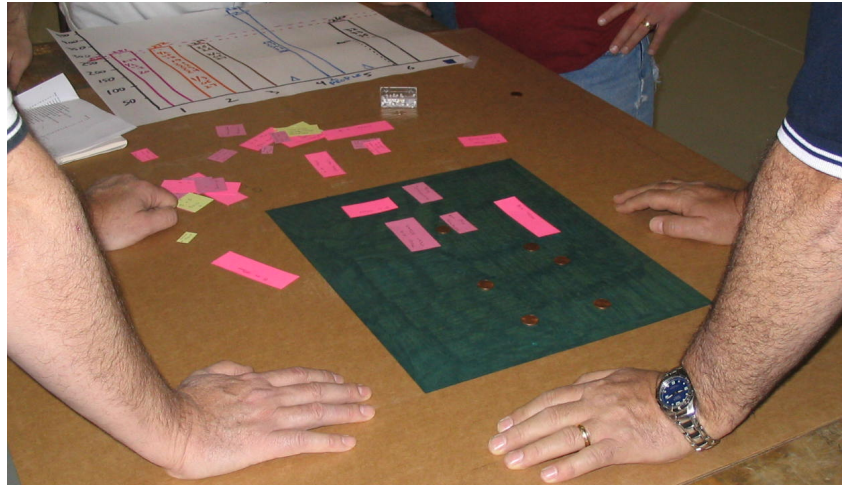

Classes forming for 2012

## CERTIFICATION PROGRAM

**Equip your leaders  
to drive *real* lean  
transformation**

**Expert instruction  
Practical skills  
Real-life exercises  
Quick results**

The Lean Implementer Certification program is designed to train people who want to lead a lean transformation within a company. The curriculum is 180 hours of rigorous training in the core tools and disciplines of lean manufacturing. Participants are people who have been selected by top management to implement change at the process level. The class size is small and is conducted at host companies to provide a realistic training environment.

# Winter 2012 Track Details

DATES	TOPICS
<i>January</i>	Value Stream mapping, 5-S and Visual Factory
<i>February</i>	Total Productive Maintenance, Quick Changeover (SMED)
<i>March</i>	Cellular Flow, Training Within Industry, Facilitation Skills, Leadership
<i>April</i>	Pull Systems, Lean Office, Mapping Administrative Processes
<i>May</i>	Supply Chain, Strategy Deployment, Project Reports, Board Review

## Group Training

Students will meet for 4 consecutive days once a month for instruction and practical exercises. These sessions are 8 hours and will take place at host company locations which may vary from month to month

## Homework Project

Each student will select a lean implementation project that they will conduct and complete at their own workplace over the course of the 5 month program. A final report will be required in the last month to gain certification.

## Testing and Board Review

We administer periodic tests on the material being taught. At the end of the course, there is a board review examination in which the student must answer oral questions to demonstrate a command of the materials and to obtain certification.

## Resources and Materials

Students will obtain a wealth of materials and gain access to numerous on-line materials that will become a valuable source of information for years to come.

## Registration Fee and Method

The fee for the program is \$3450 per person.
